**9770 S. Virginia
Street, Reno**

We've received some feedback and questions on the recent news of a proposed merger between **Reno City Employees FCU** and **Great Basin FCU**. There is a legacy that you have been a part of, and an uncertainty about what is to come. The Board of Directors for Reno City Employees FCU did not take this decision lightly because they are passionate about doing what is best for you and the membership.

What attracted your board to Great Basin FCU is that we are very similar. We both started serving members of Reno and Sparks in the early 1950s. We both remain local and employ local staff. We both are fiercely dedicated to our members. Great Basin's mission is to be member-loved and every decision revolves around making their member's experience simple and they lead each interaction with their service promises. We invite you to come meet Leadership and Staff, as well as ask any questions on your mind regarding the proposed merger.
